WWW.OENOLOGUESDEFRANCE.FR

These competitions are sponsored by the International Organisation of Vine and Wine (OIV).

The OIV commissions an expert to witness the tastings of the different juries and whose task it is to ensure the competition respects the rules imposed by the standards that govern international competitions (number of samples tasted, number of foreign tasters per table, percentage of medal-winning wines...).

VIN?FED

These international competitions meet the ISO 9001:2015 standard and are certified by SGS ICS.

This certification implies that the tastings are controlled and comply with strict criteria (anonymising of samples, temperature for serving wines, selection of wine tasters...).

OENOLOGISTS' VOICES TO SPEAK ABOUT YOUR WINES

○ 25 YEARS OF PROFESSIONALISM AND KNOW-HOW

Your wine will be tasted and judged exclusively by:

- **Oenologists** expert in wine-growing and tasting.
- **International wine-tasters** whose expertise in wine and tasting is recognised in their home countries (30 countries were represented in 2020).

Each jury table is presided by a **French oenologist**.

The wine-tasters are trained for the requirements of the **Oenologues de France's competitions**.

○ COMMENTS ON MEDAL-WINNING WINES BRING VALUE AND HELP BOOST SALES

Oenologues de France competitions are the only ones that offer **specific comments** for your wine.

You thus benefit from specific phrases describing the aromatic profile of your wine as well as suggestions of food-and-wine pairing to use in all your communication material.
